

7th November, 2024

Dear Dr Hadi Naghavipour,

Re: Teaching and Learning

I am writing to extend my heartfelt congratulations on your outstanding achievements in teaching and learning during Trimester Two, 2024. Your dedication to fostering a stimulating and inclusive learning environment has had a profound impact on both your students and the MIT academic community at large.

It is rare to come across an educator who so consistently engages students with passion, empathy, and intellectual rigor. Your innovative approach to course delivery, coupled with your unwavering commitment to student success, has not only elevated the educational experience but has also inspired a deeper sense of curiosity and critical thinking among your students.

The feedback from your students speaks volumes about your ability to motivate, challenge, and support them in their academic journeys. It is clear that you go above and beyond to ensure that each student not only understands the unit material but also develops the skills necessary to apply their knowledge in meaningful ways. Your influence extends beyond the lecture room, shaping the academic culture of MIT and inspiring your colleagues to reach new heights in their own teaching practices.

On behalf of the School of Business, I commend you for your tireless efforts and exceptional contributions to your field of education. Your passion for teaching and your commitment to fostering a lifelong love of learning have resulted in the following student evaluation scores. Congratulations!

MBA621 Digital Marketing and Analytics

5

Once again, congratulations on this well-deserved recognition. I look forward to seeing the continued success and inspiration you bring to your students and colleagues alike.

Warmest regards,

Kristina M. Nicholls

Letter of Commendation

Dear Dr Hadi Naghavipour,

The Head of School of Information Technology and Engineering would like to commend you on an excellent evaluation report for trimester 2, 2024. This commendation is a result of your teaching as follows:

MDA523 Software Engineering Fundamentals
Score = 4.92/5

Our students have shown through the reports that you are creating confidence in them to study and learn through your teaching at MIT. We look forward to similar and/or better performance in future.
Congratulations!

Yours Sincerely,

Prof Savitri Bevinakoppa
